

Henry Schein – Celebrating 75 Years of Success and a Heritage of Service and Innovation

Henry Schein, Inc. has grown from a small, storefront pharmacy into a FORTUNE 500® company, the largest distributor of healthcare products and services to office-based practitioners in the combined North American and European markets. Our Company's size has increased from two people—founders Henry and Esther Schein—to nearly 12,000 Team Schein Members worldwide. We are proud of...

Henry Schein's unique values-based culture and commitment to customer service.

A shared sense of mutual responsibility, ethical behavior, creativity, and open communication guide our actions and form the foundation of our commitment to serve 500,000 dental, medical, and veterinary customers around the world. This commitment, backed by our world-class infrastructure, is one reason why 99% of our orders in the U.S. and Canada are shipped the same day the order is received. Our commitment to our customers is also seen in the breadth of our offering — more than 70,000 national and Henry Schein private-brand products in stock and 100,000 additional products available as special order items.

Henry Schein's commitment to reinvention and innovation.

Since it was founded, our Company has reinvented itself numerous times to meet customers' needs, in the process has reshaped our industry as well. Mail order; a focus on office based practitioners; the introduction of the Henry Schein catalog; a fully automated distribution cycle; infection control in dental practices; veterinary dentistry; practice-management software; electronic claims; and the seamless integration of field sales, telesales, and direct marketing are just some of the innovations that Henry Schein has brought to our industry since our founding.

Henry Schein's sense of social responsibility.

Our Company has a long history of giving back to the community. Today, with operations in 19 countries, we are able to use our core competencies to great effect through Henry Schein Cares, our global social responsibility program. The activities we support enhance healthcare advocacy and education; increase access to care among the underserved populations; strengthen community wellness programs; and help prepare for and respond to disasters. By maintaining these qualities as our Company has grown, and by meeting our commitments to our customers, vendor partners, investors, society, and Team Schein, Henry Schein can celebrate 75 years of success.
